A 35 Minute Farming Route by Tanza

1. Field of Ruin - Helliot Mine Waypoint [&BESBAAA=] (Iron)

Turn right once you land at the waypoint. Once outside the portcullis of the fort located here, turn right again and look for a path up to the top of the hill, just after a small crystalized tree/plant. There's usually just an Earth Elemental or two to deal with, so there's very little interference to manage. The Rich Iron Vein is located directly above the repairing vendor.

2. Blazeridge Steppes - Behem Waypoint [&BP0BAAA=] (Iron)

Upon landing at the waypoint, look to the east and follow the path through the canyon past several Canyon Spiders. The spiders will attempt and often succeed at ensnaring you, so it may be useful to have skills that remove conditions available.

The cave mouth at the end of the mouth coincides with the entrance of the Behem Gauntlet Jump Puzzle. To reach the Rich Iron Vein, simply jump down the gorge and into the water. The vein will then just be to the north on the rocky cavern shore.

Rich Iron & Platinum Farming Guide

3. Iron Marches – Grostogg's Kraal Waypoint [&B08BAAA=] (Platinum)

To reach this Rich Platinum Vein, go north after landing at the waypoint here. Follow the river northeast to the waterfall where a Veteran Skale is waiting.

4. Iron Marches – Gladefall Waypoint [&B04BAAA=] (Platinum)

This Rich Platinum Vein lies beside the vista just northwest of the waypoint. To reach it, you need to go the long way around.

Begin by crossing the bridge just southwest, and work your way towards the higher shelves to the northwest.

Just west of the vista on the map, there is a set of ledges off the side of the cliffs that face the vista. Use these ledges to jump across and reach the vista, which has a Veteran Ram guarding the rich vein just nearby.
